### Mini Wonderful Curves: 16 Seasonal Quilt Projects Using the QCR Mini<sup>©</sup>

by Jenny Pedigo and Helen Robinson for Sew Kind of Wonderful with Sherilyn Mortensen

Using curves in quilt designs can create a fresh and modern aesthetic in quilting. In the new, hotly-anticipated, and gorgeous book, *Mini Wonderful Curves: 16 Seasonal Quilt Projects Using the QCR Mini* [March 2018, Landauer Publishing], sister trio and creators of award-winning rulers to piece curved shapes, reveal exclusive curved patterns for wall hangings, runners, and small quilt projects that celebrate the seasons and special holidays.

When quiltmaker Jenny Pedigo wanted an easier way to consistently cut curves that would be easy to sew, she created the Quick Curve Ruler<sup>®</sup> and accompanying patterns with her two sisters Helen Robinson and Sherilyn Mortensen. Since then, the device and patterns have gone on to sell worldwide to

quilters who have fallen in love with curved piecing using the easy techniques of the tool.

This family of quilters has branched out, offering patterns, fabric, and more under the name Sew Kind of Wonderful. Their third book with Landauer Publishing, *Mini Wonderful Curves*, offers contemporary patterns you can create using the QCR Mini<sup>©</sup>, each with a curvy flair combined with fabulous textures and color combinations. As an added bonus, the book includes the team's quilting insights and suggestions.
